Calo START HERE

Hi! I'm Calo. Let's get you set up.

Your student planner with a pet who cheers you on. Three quick steps and you're planning.

1 Watch for your unlock code

Your personal code (it looks like **CALO-XXXX-XXXX-XXXX-XXXX**) arrives as an **Etsy message within 24 hours** of your order, usually much sooner. Look in **Messages** in the Etsy app or on etsy.com.

No code after 24 hours? On Etsy, open **Purchases**, find your Calo order and tap **Message seller** (or reply to any message from me). I'll sort it out fast.

2 Open Calo

Tap the button on the device you want to use.

caloplanner.com

3 Add Calo to your Home Screen first, then enter your code

IMPORTANT ON IPHONE & IPAD

On iPhone and iPad, the Home Screen app and Safari count as two separate devices. Add it first so your code is only used once.

1. Open the link in **Safari**. Tap **Share** (the square with an arrow).
2. Tap **Add to Home Screen**. If you see **Open as Web App**, turn it on. Tap **Add**.
3. Open **Calo from your Home Screen**. Calo says hi: type your code and tap **Unlock**.

Android phone or tablet

In **Chrome**, tap the **three-dot menu**, then **Install app** (or **Add to Home screen**). Open Calo from your home screen and enter your code.

Laptop or computer

In **Chrome** or **Edge**, click the install icon in the address bar (or the menu, then **Install Calo**). Or just bookmark it. Then enter your code.

Calo GOOD TO KNOW

A few friendly tips

Keep this page handy. It answers the most common questions.

YOUR CODE

One code, up to 3 of your devices

Your code works on up to 3 of your devices, for example your phone, tablet and laptop. **Please don't share it.** It's just for you.

Got a new phone, or Calo says your code is already on 3 devices? Message me on Etsy and I'll **reset your code** so you can use it again.

YOUR PLANS

Saved on your device, private to you

There's no account. Your plans stay on the device you use, so they **don't sync** between your phone and laptop.

Back up every so often: in Calo, open **Customize** and tap **Back up now**. It saves a file you can bring back later with **Restore from backup**. Clearing your browser's website data can erase your plans, so a backup keeps them safe.

OFFLINE

Works without internet

You need internet once to unlock. After that, Calo keeps working offline.

REMINDERS

Best while Calo is open

Reminders show while Calo is open. They may not arrive when it's fully closed, so don't rely on them for anything urgent.

Stuck? I'm happy to help.

Message me through Etsy (open **Purchases**, find Calo, tap **Message seller**) and tell me what you see. I usually reply the same day.
